

Ahoy!

May 23, 1985

Dear Anthony:

Enclosed is your program, 1541 Zip, which we're unable to use. It was sitting in a pile of programs that had not been returned to their authors because of lack of a stamped and self-addressed envelope. To avoid having this happen again, please include a SASE with all future submissions.

MicroCalc is with our technical editor, who advises me that it should be returned to this office next week with his recommendations. You should hear from me shortly thereafter.

Yours,

David Allikas
