Dear Anthony,

Thank you for your resubmission of "Quest for Fire." The program is very well done, and would have been a very likely candidate for a slot on our SoftSide DV. Unfortunately, we have very recently decided to merge our Adventure of the Month into our Disk and Cassette magazines. This means that an adventure will be present on each month's cassette and disk. The adventure for a given month will be translated for every system we support. This effectively makes it impossible for us to publish your adventure, which would be almost impossible to translate due to the fact that it was written in machine language.

I am sorry that we are not able to use your program, especially after the work you put into it at our request. We appreciate the quality of your submission, and would look forward to any submissions you may choose to send us in the future.

Sincerely,

Richard Bouchard Jr.  
Software Department
